AMIRAN

Iran Product

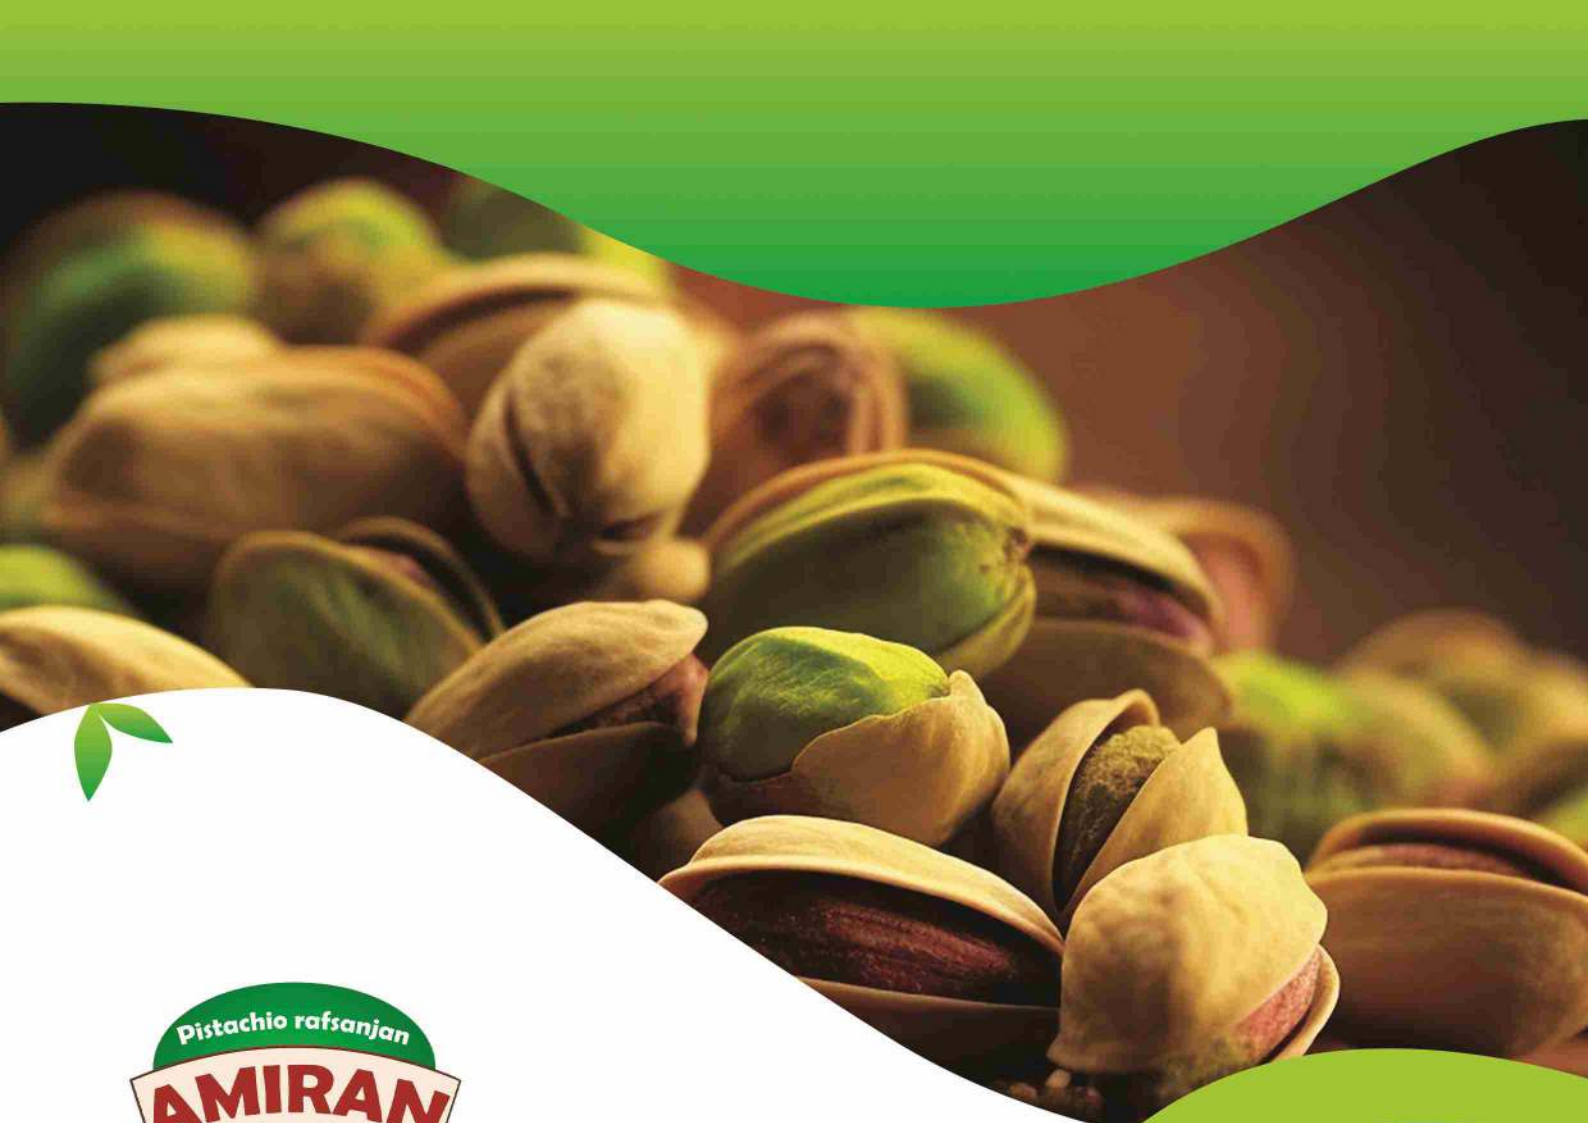

Amiran Brand is proud to offer its special products to its customers in the field of various types of pistachios and their derivatives, with the best quality and the most affordable prices, leveraging years of experience and the dedication of committed employees and experienced staff. Amiran Company is one of the leading producers of pistachios and their derivatives in Iran, having secured a special place in both domestic and international markets through its high-quality products. Additionally, this company adheres to international standards in processing, packaging, and shipping, providing greater trust and support to its customers. Amiran's sales representatives across the country and worldwide are ready to serve buyers round the clock, as the mission of this brand is to offer the highest quality products in large volumes and at the lowest prices to its customers globally.

Rafsanjan, a beautiful city in Kerman province, proudly stands as the top and main producer of high-quality Iranian pistachios. These pistachios are meticulously produced using traditional methods, preserving their original quality and taste throughout the production process. Due to their high quality and strong export standards, this agricultural product has conquered international markets, making Iran one of the leading countries in pistachio production and export. Therefore, Rafsanjan pistachios from the Amiran brand are recognized as a symbol of quality in Iran's agricultural industry.

Rafsanzan Pistachios from the Amiran brand is known as some of the most famous and highest quality pistachios in Iran, celebrated for their exceptional taste. Rafsanzan pistachios are categorized into two types based on their appearance: hazelnut-shaped and almond-shaped pistachios. These pistachios are significant not only for domestic use but also for export, due to their unique characteristics such as delightful flavor and superior properties, making them among the most popular types of pistachios in global markets.

Amiran Pistachio Company is engaged in providing and supplying various types of pistachios including Kalleh Ghouchi (Jumbo), Akbari, Ahmad Aghaei, hazelnut-shaped (Rafsanjan product), salted pistachios, lemon salted pistachios, saffron salted pistachios, and pistachio kernels such as whole kernels, grade one, unripe, split, chipped, and broken kernels. It also offers pistachio slivers, pistachio butter, pistachio powder, Pistachio flour, and pistachio shells, ready to collaborate with all stakeholders and provide all products in both retail and bulk quantities.

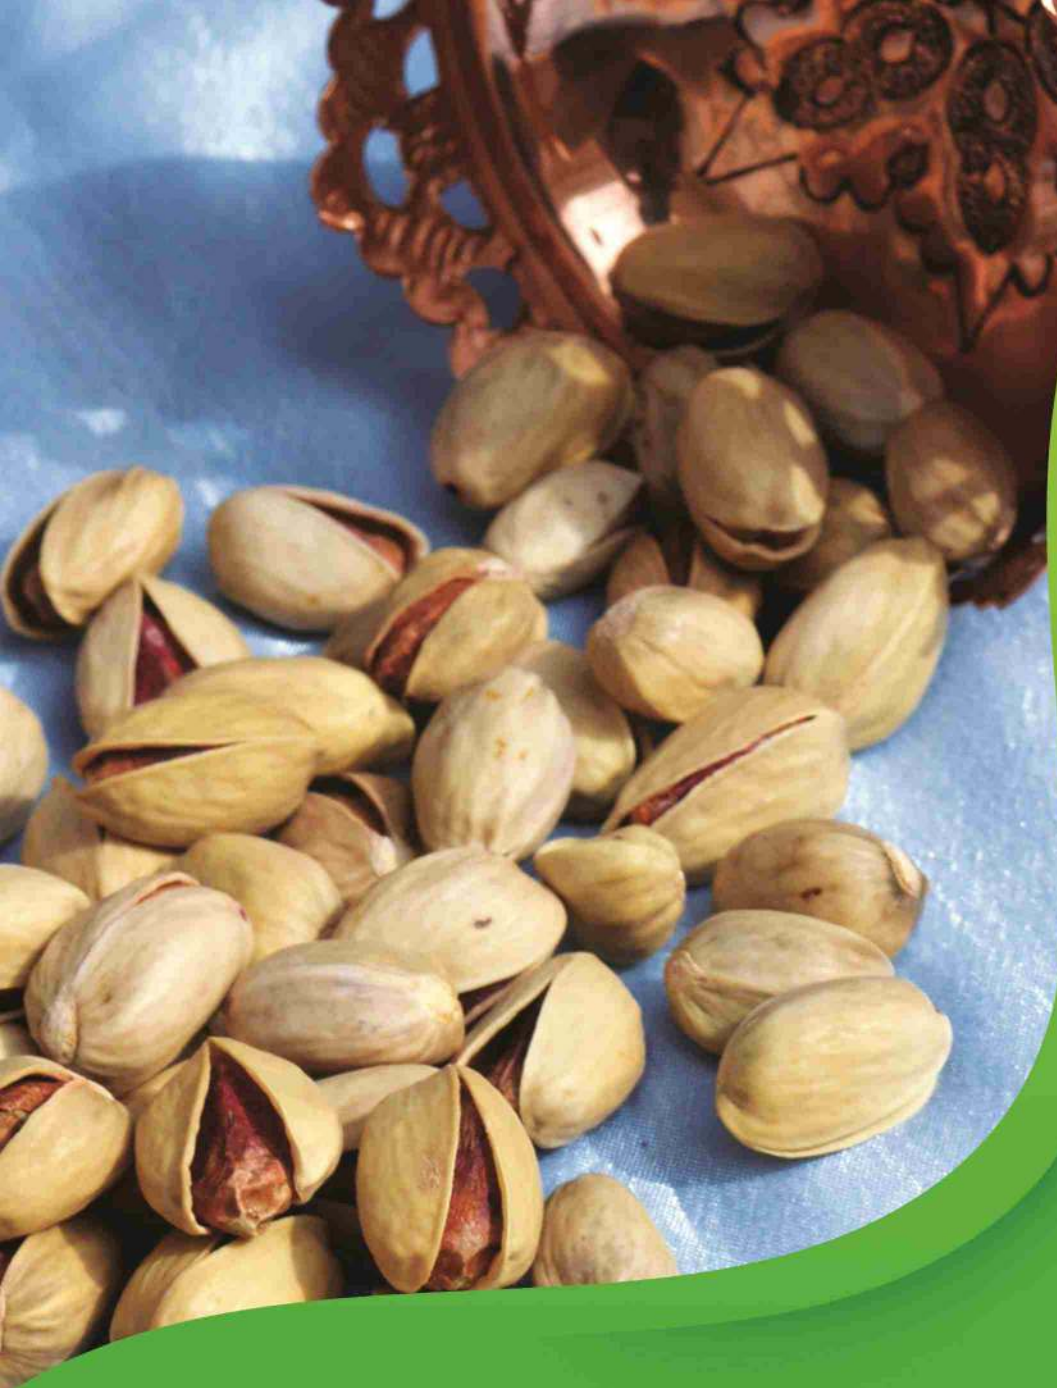

Pistachios are recognized as a valuable food source containing a variety of nutrients. This delicious nut can be regularly included in your diet, providing carbohydrates, protein, amino acids, and healthy fats essential for the body. Pistachios are also rich in important minerals such as potassium, iron, calcium, zinc, copper, and sodium. These minerals help maintain cardiovascular health, strengthen the immune system, and stimulate hormone secretion. As our bodies need a variety of minerals, consuming pistachios can be beneficial.

Akbari Pistachio:

Akbari pistachios are a type of large, almond-shaped, smiling pistachios known in our country as Iranian pistachios. They are very popular among consumers due to their superior taste and quality. This type of pistachio from the well-known Amiran brand is available in global markets in sizes 18_20, 20_22, and 22_24 ounces.

Kalleh Ghouchi (Jumbo) Pistachio:

Kalleh Ghouchi or Jumbo pistachios are one of the most popular types of Iranian pistachios, famous worldwide for their superior taste and quality. Known in the global market as Jumbo, they are among the largest types of Iranian pistachios. The smiling shape percentage of this type of pistachio is medium, and they are available in sizes 20_22, 22_24, and 24_26 ounces.

Ahmad Aghaei Pistachio:

Ahmad Aghaei pistachios are also among the very popular and sought-after types of smiling pistachios in global markets. With relatively large and elongated dimensions, they are considered valuable and high-quality pistachios in sizes 22_24, 24_26, 26_28, and 28_30 ounces, proudly offered by the reputable Amiran brand in various packaging options to meet customer needs.

Hazelnut-shaped Pistachio:

Hazelnut-shaped pistachios are another popular type, noted for their round, hazelnut-like shape and high smiling shape percentage. Apart from their delightful and unique taste, they are available in sizes 26_28, 28_30, 30_32, 32_34, and 34_36 ounces, impacting the pistachio market and having a dedicated following.

Pistachio Kernels:

Pistachio Kernels Among the popular and highly sought-after products of the Amiran brand are various types of pistachio kernels, categorized based on different pistachio types, including Akbari, Ahmad Aghaei, almond-shaped, Kalleh Gouchi, and hazelnut-shaped kernels. Amiran offers these pistachio kernels in diverse categories such as whole, soft, chipped, and wheat kernels, which can be used in confectioneries, for making sweets like Sohan, ice creams, and also for decorating dishes and desserts.

Pistachio Shells:

Pistachio Shells Pistachio shells are an extraordinary natural material, notable for their hardness and strength, used to produce pure carbon and in various agricultural, medical, food, pharmaceutical industries, and more. This product is provided by the popular Amiran brand in bulk and at the lowest prices for its buyers.

Slivered pistachios:

Slivered pistachios, or sliced pistachios, are an excellent garnish and flavoring for various dishes, desserts, and sweets, prepared by separating the pistachio hull (the skin of the pistachio kernel) and cutting it into thin slices. This product, one of the best from the Amiran brand, is highly popular due to its vibrant green color, sufficient oil content, and top-notch taste.

Pistachio Butte:

Pistachio butter is a delicious and nutritious product made from raw pistachios. This combination, free of any additives, is rich in protein, healthy fats, antioxidants, fiber, and minerals. This popular product from the Amiran brand is available in various packaging and weights for the convenience of dear customers.

Pistachio Powder:

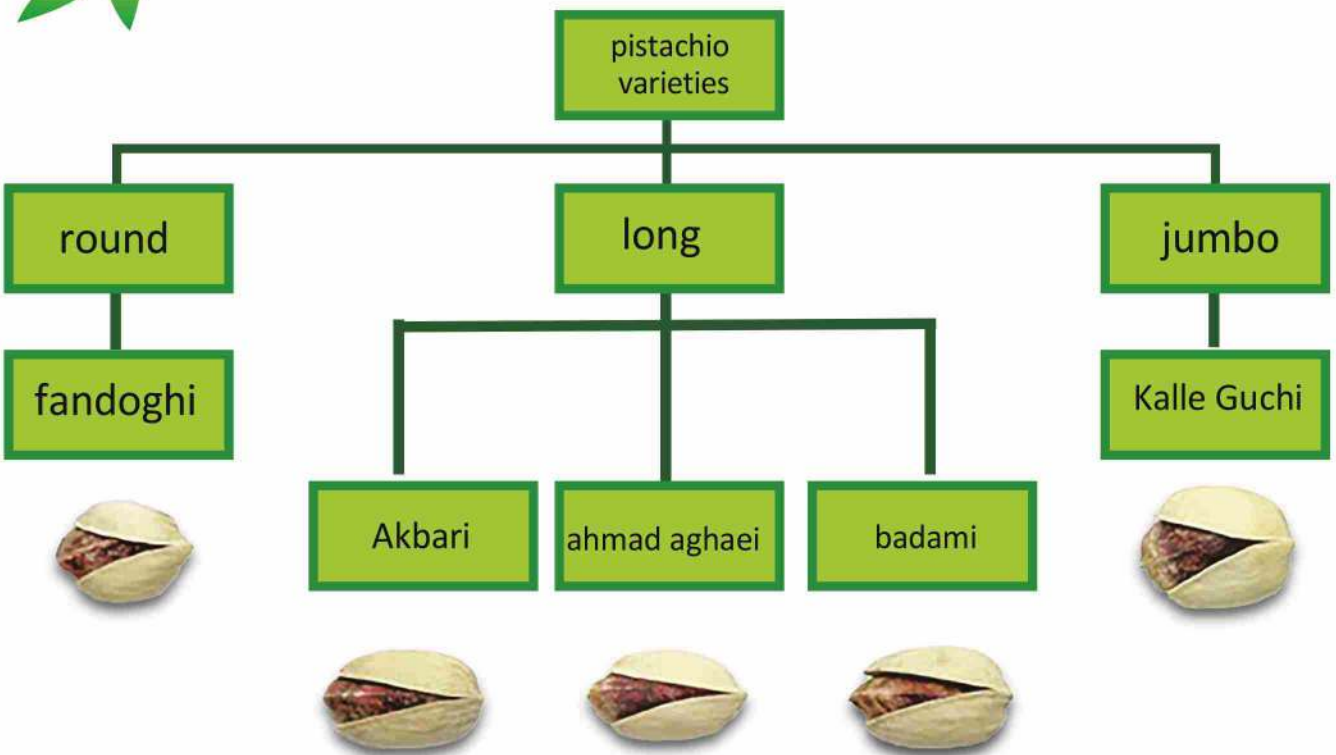

This product is a derivative made from pistachio kernels, used for its good taste and aroma in cooking, baking, making cakes, biscuits, chewing gum, ice creams, and dry sweets. One of the main uses of this popular product from the Amiran brand is in producing pistachio kernel ghavoot.

Pistachio flour:

Pistachio flour is a rich and valuable source obtained from grinding the outer thin shells and core of pistachios. With unique features including the presence of nutrients like protein, fat, and fiber, they are an ideal choice for meeting the nutritional needs of livestock and improving their health and milk production.

Given the diversity and high quality of Amiran brand products, it is recommended to consider various types of pistachios and derivatives from the Amiran brand as a popular and high-quality option. This company, by offering fresh, high-quality products that meet the necessary standards, will support you at every stage from the first request to purchase consultation for a quality shopping experience.
